The recent budget meeting for the Woodbury County supervisors came as somewhat of a surprise to us, as we had requested several times to be notified when the discussion was to be held, so that the Fair could answer your questions and present the interests of the Woodbury County Fair. This was not to be, and the Board and I felt you and the public at large should have the opportunity to know just how the funding supplied by the county benefits the welfare of Woodbury County.

The overall mission of the fair is to furnish a forum to reward the hard work of our 650 young members of 4-H, FFA and Clover Kids in our county (2nd largest enrollment in the state), educate the general public on the importance and impact of agriculture culturally and financially and to provide a display venue for business to maximize the sales of their respective products and services. I might add that whenever possible, we try to engage vendors, businesses and entertainment based in Woodbury County to promote commerce directly relative its citizens through additional applicable taxes.

A study recently completed by Tufts University concluded that young adults involved in 4-H were 4 times as likely to contribute to their communities, 2 times as likely to pursue healthy life choices and 2 times more apt to pursue STEM (Science, Technology, Electronics and Math) activities outside of normal school hours.

The 2015 attendance of +70,000 souls include people from all walks, furnishing a location to meet, enjoy and interface in an informal environment to learn, have fun and discover that no matter what differences there may be, will still share a common bond that transcends.

So, on behalf of the +70,000 attendees, the 650 young exhibitors, 125 businesses, 150 fair volunteers, Board members and myself----thank you for your allocation of funding to the continuing success of the Woodbury County Fair. We look forward to your continued support in the future.

Sincerely,
